

- 1 | pH meter with advanced electronic technology and high quality components.
  - 2 | Very constant and highly accurate measurements.
  - 3 | Very easy to operate.
  - 4 | Single or two-point calibration.
  - 5 | Automatic correction of errors due to temperature.
  - 6 | Buttons for: ON/OFF - pH - mV - °C
  - 7 | Include:
    - 1 pH meter.
    - 1 bottle of 6.86pH solution and 1 bottle of 4.003pH solution.
- 1 pH electrode (gel-filled and non-refillable). Small-format coaxial connection type.
  - 1 temperature probe.
  - 1 9V battery type 6LR61.
  - 1 user manual.
  - 2 plastic supports that attach on one side to hang the electrode and the temperature probe.
  - 1 small flat screwdriver.
  - 1 plastic case.

### Portable pH/mV/Temperature meter

<b>Code</b>	KDD010
<b>pH</b>	
<b>Range</b>	0,00 ~ 14,00 pH
<b>Resolution</b>	0,01 pH
<b>Accuracy</b>	±0,01 pH
<b>mV</b>	
<b>Range</b>	0 ~ ± 1999 mV
<b>Resolution</b>	1 mV
<b>Accuracy</b>	±0,1% F-S ±1 digit
<b>°C</b>	
<b>Range</b>	0 ~ 100° C
<b>Resolution</b>	0,1 °C
<b>Accuracy</b>	±0,4 °C
<b>Display</b>	LCD
<b>Power supply / Battery</b>	1 x 9V (6LR61)
<b>Working environment</b>	0°C~50°C, RH =95%
<b>Input impedance</b>	1012 Ohm
<b>Dimensions</b>	123 x 72 x 33 mm
<b>Weight</b>	238 g
