

## ▶ BGD - Centrifuge tubes

- 1| Made of polypropylene (PP), a mechanically stable material suitable to be used in a wide range of temperatures that allow its sterilization in autoclave.
- 2| Highly resistant to different chemical solvents such as chloroform as well as alkali and acids.
- 3| Can be sterilized in autoclave
- 4| Can be used at very low temperatures (-20 °C)
- 5| Highly resistant to microorganisms penetration
- 6| Thanks to its density, it floats on water

### ▶ Centrifuge tubes

- 1| With threaded cap, conical bottom and graduation.
- 2| They are provided with marking area for a correct identification of samples.
- 3| Tubes BGD070\* present self-standing bottom.

| Code    | Capacity | Dimensions |
|---------|----------|------------|
| BGD010  | 15 mL    | 120x16 mm  |
| BGD011  | 50 mL    | 117x29 mm  |
| BGD070* | 50 mL    | 115x30 mm  |

## ▶ BGN - Microtubes

### ▶ PCR microtubes

- 1| These thin polypropylene tubes transmit the heat to the sample efficiently and homogeneously thanks to their thin and uniform walls.
- 2| They are provided with conical bottom and lid strips.
- 3| They are autoclavable and can endure temperatures of -20°C for an optimal preservation of samples in freezers.

| Code   | Description            | Capacity | Pack |
|--------|------------------------|----------|------|
| BGN003 | Microtube with lid     | 0.2 mL   | 1000 |
| BGN006 | Strip of 8 microtubes  | 0.2 mL   | 200  |
| BGN007 | Strip of 12 microtubes | 0.2 mL   | 200  |

### ▶ Centrifuge microtubes

- 1| Made of PP, graduated, with conical bottom; the lid is joint to the body of the tube.
- 2| Widely used in different fields, not only for centrifugation but also as vials for chemical substances.

| Code   | Capacity | Units/bag |
|--------|----------|-----------|
| BGN004 | 0.5 mL   | 1000      |
| BGN005 | 1.5 mL   | 500       |
| BGN025 | 2 mL     | 500       |

▶ BYF - Sample transport/Storage

▶ Freezing boxes for centrifuge tubes

- 1| Cardboard freezing boxes for centrifuge tubes without stopper.
- 2| With numbered grid on the lid for a correct identification of samples.

| Code   | Capacity   | Dimensions        |
|--------|------------|-------------------|
| BYF001 | 16 x 50 mL | 14.6x14.6x12.2 cm |
| BYF002 | 49 x 15 mL | 13.5x13.5x11.5 cm |

▶ Freezing box for PCR microtubes

- 1| Polypropylene box, autoclavable with transparent lid to freeze microtubes of 0.2 mL.

| Code   | Capacity  | Dimensions      |
|--------|-----------|-----------------|
| BYF003 | 96 (8x12) | 12.6x8.8x3.1 cm |
